

### 3D CAD Evolution

Dall'Agnese uses the graphical 3-CAD software for processing, developing and rendering of orders.

This program is provided free of charge to customers for the calculation of estimates and related renders to be provided to end users.

By means of this software, you can provide your customers with an accurate quote, accompanied by a rendering that faithfully shows also the finish selected for the composition.

Following a few additional web modules that, can be activated on request (reserved to retailers and architects who work with us):

- Render farm
- Special Effects and Navigation
- Export DWG
- Sketch - up

These modules will be activated upon your request, with a minimum contribution, sending an email to: [3cad@dallagnese.it](mailto:3cad@dallagnese.it)
